SCIENCE

Thursday, June 22, 1995 — 9:15 a.m.

There are 70 questions on this test of basic science concepts and skills. Your answers for questions 1 through 69 must be recorded on the separate answer sheet for multiple-choice questions. Use only a black lead pencil on that answer sheet. Your answer for question 70 is to be recorded in the spaces provided on the last page of this test booklet.

When you have completed the test, you must sign the declaration which states that you did not see any of the questions or answers before taking this test and that you have neither given nor received help in answering any of the questions during the test. Your answer papers cannot be accepted if you fail to sign this declaration.

DO NOT OPEN THIS TEST BOOKLET UNTIL YOU ARE TOLD TO DO SO.
DIRECTIONS TO STUDENTS

Questions 1 through 69 on this test are multiple-choice questions. Read each question carefully. Decide which of the choices given is the best answer, based on science principles. On the separate answer sheet, mark your answer in the row of circles for each question by filling in the circle that has the same number as the answer you have chosen.

Read the sample question below.

Sample Question

What temperature reading is shown on the thermometer?

(1) −30°C
(2) 20°C
(3) 70°C
(4) 100°C

The correct answer is 20°C, which is choice number 2. On your separate answer sheet for the multiple-choice questions, look at the box showing the row of answer circles for the sample question. Since choice number 2 is the correct answer for the sample question, the circle with the number 2 has been filled in.

Answer questions 1 through 69 on this test in the same way. Mark only one answer for each question. If you want to change an answer, be sure to erase your first mark completely. Then mark the answer you want. You may use scrap paper and the blank spaces of this test booklet to work out the answers to the questions, but be sure to mark all your answers for questions 1 through 69 on the separate answer sheet.

Answer question 70 in the space provided on the last page of this test booklet. Do not make any marks for question 70 on the separate answer sheet. Specific directions for answering this question are given in the test booklet.

When you are told to start working, turn the page and begin with question 1. Work carefully and answer all the questions. Your score will be the number of questions you answer correctly.
1 The diagram below shows a ruler beside a seedling growing in soil.

What is the best estimate of this plant's height above the soil?

(1) 3.5 cm
(2) 4.5 cm
(3) 5.5 cm
(4) 6.5 cm

2 Insects obtain food energy from

(1) plants or animals
(2) the atmosphere
(3) soil minerals
(4) water or ice

3 Which gas do animals release as a waste product?

(1) oxygen
(2) carbon dioxide
(3) hydrogen
(4) nitrogen
4 The diagram below represents the process of photosynthesis in a green plant.

Which label is needed to complete the diagram?

(1) light energy
(2) bacteria
(3) fertilizer
(4) insecticide

6 Which life process results in new individuals?

(1) circulation
(2) digestion
(3) respiration
(4) reproduction

7 A thick, waxy coating on the leaves of some desert plants most likely permits the plants to

(1) reproduce quickly
(2) conserve water
(3) remain dormant
(4) release food energy

5 When the volcano Mt. St. Helens erupted, thousands of acres of forest were destroyed. Which statement best describes this event?

(1) All living things come from other living things.
(2) All organisms interact in an area to form a natural community.
(3) The balance within ecosystems may be disturbed by natural events.
(4) Natural communities always change in an orderly sequence.

8 An important reason for recycling mineral resources is that mineral resources are

(1) replaceable
(2) nonrenewable
(3) abundant
(4) inexpensive
Base your answers to questions 9 and 10 on the graph below, which shows the relationship between water temperature and the normal swimming speed of largemouth bass for the temperatures shown.

9 According to the graph, largemouth bass swim fastest when water temperatures are closest to

(1) 5°C  
(2) 15°C  
(3) 25°C  
(4) 30°C

10 The change in swimming speed shown by the graph is an example of animals

(1) responding to stimuli in their environment  
(2) migrating to a warmer climate  
(3) becoming dormant when temperatures are warmer  
(4) growing faster when temperatures are colder
The chart below gives information about some vitamins.

<table>
<thead>
<tr>
<th>Vitamin</th>
<th>How used in body</th>
<th>Problems if not enough</th>
<th>Food sources</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (retinol)</td>
<td>vision, healthy skin</td>
<td>night blindness, rough skin</td>
<td>liver, broccoli, carrots</td>
</tr>
<tr>
<td>B₁ (thiamine)</td>
<td>growth and repair</td>
<td>poor appetite, tired feeling</td>
<td>ham, eggs, raisins</td>
</tr>
<tr>
<td>B₂ (riboflavin)</td>
<td>growth, healthy skin and hair</td>
<td>poor appetite, tired feeling</td>
<td>milk, yeast, eggs</td>
</tr>
<tr>
<td>B₃ (niacin)</td>
<td>growth, helps body use nutrients</td>
<td>skin rash, diarrhea, poor appetite</td>
<td>peanuts, tuna, chicken</td>
</tr>
<tr>
<td>C (ascorbic acid)</td>
<td>healthy membranes, wound healing</td>
<td>sore mouth and bleeding gums, bruises</td>
<td>green peppers, oranges, lemons, tomatoes</td>
</tr>
<tr>
<td>D (calciferol)</td>
<td>bone growth</td>
<td>crooked legs, poor teeth</td>
<td>egg yolk, shrimp, milk, yeast</td>
</tr>
</tbody>
</table>

Which food is probably most useful for the proper development of the skeletal system?

(1) liver  
(2) oranges  
(3) chicken  
(4) milk

Which term best completes the statement below?

Cell is to tissue as tissue is to

(1) organism  
(2) system  
(3) organ  
(4) nucleus

Which structures are part of the same body system?

(1) nerve and brain  
(2) heart and stomach  
(3) lungs and small intestine  
(4) skin and skull
14 Which body structure moves by the action of voluntary muscles?

(1) finger
(2) small intestine
(3) heart
(4) liver

15 What human body system is represented in the diagram below?

(1) circulatory
(2) reproductive
(3) digestive
(4) nervous

16 A dialysis machine is used to filter wastes from a person's blood. The function of a dialysis machine is most like the function of a

(1) kidney
(2) testis
(3) stomach
(4) bone

17 A major difference between living things and nonliving things is that only living things are made of

(1) atoms
(2) cells
(3) chemicals
(4) elements

18 Which industry uses the processes of pasteurization, freezing, and refrigeration?

(1) nuclear power industry
(2) automobile industry
(3) communications industry
(4) food industry

19 Which instrument would a biologist most likely use to study a one-celled organism?

(1) telescope
(2) microscope
(3) barometer
(4) nuclear reactor
The graph below shows the number of deaths from AIDS and the number of new AIDS cases reported for each year from 1985 to 1992.

AIDS Deaths and New AIDS Cases In the United States, 1985 – 1992

Which statement correctly describes information contained in the graph?

(1) The number of deaths from AIDS increased each year from 1985 through 1992.
(2) The number of new AIDS cases increased each year from 1985 through 1992.
(3) Fewer new AIDS cases were reported in 1992 than in 1988.
(4) The number of deaths from AIDS will probably decrease steadily through the 1990's.
Base your answers to questions 21 and 22 on the cross-sectional diagrams below, which show the same area before and after crustal movement.

21 What most likely occurred because of the crustal movement shown?

(1) a volcanic eruption
(2) spreading of the ocean floor
(3) an earthquake
(4) fossil formation

22 Which type of crustal activity is shown by the diagrams?

(1) bedrock formation
(2) erosion
(3) folding
(4) faulting
23 The diagrams below show two different cliffs. Each cliff is made up of five rock layers which contain fossils.

<table>
<thead>
<tr>
<th>Top of Cliff 1</th>
<th>Top of Cliff 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mastodont Fossils</td>
<td>Brachiopod Fossils</td>
</tr>
<tr>
<td>Dinosaur Fossils</td>
<td>Eurypterid Fossils</td>
</tr>
<tr>
<td>Brachiopod Fossils</td>
<td>Graptolite Fossils</td>
</tr>
<tr>
<td>Graptolite Fossils</td>
<td>Trilobite Fossils</td>
</tr>
<tr>
<td>Trilobite Fossils</td>
<td>Stromatolite Fossils</td>
</tr>
</tbody>
</table>

Bottom of Cliff 1
(not drawn to scale)
Bottom of Cliff 2

Which type of fossil is most likely the oldest?

1. stromatolite
2. trilobite
3. brachiopod
4. mastodont

24 The diagram below shows a drainage system.

![Diagram of a drainage system with mountains, streams, and valleys]

Drainage systems like the one shown move weathered rock material from mountains to valleys to

1. different mountains
2. lakes or ocean basins
3. different continents
4. higher valleys
25 The data table below shows the density of four rock samples and the density of water.

<table>
<thead>
<tr>
<th>Substance</th>
<th>Density (g/cm³)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sample A</td>
<td>0.7</td>
</tr>
<tr>
<td>Sample B</td>
<td>1.2</td>
</tr>
<tr>
<td>Sample C</td>
<td>0.9</td>
</tr>
<tr>
<td>Sample D</td>
<td>2.5</td>
</tr>
<tr>
<td>Water</td>
<td>1.0</td>
</tr>
</tbody>
</table>

Which rock samples will float in water?

(1) A and B
(2) A and C
(3) B and C
(4) B and D

27 The crust of Earth is composed mostly of

(1) rocks
(2) fossils
(3) soils
(4) oil

28 The boundary where two different air masses meet is called a

(1) high
(2) thunderstorm
(3) front
(4) fault

26 Studies of the ocean floor have shown that the ocean floor has

(1) tornadoes and glaciers
(2) deserts and rain forests
(3) plains and mountains
(4) winds and fronts

29 A low-pressure system moving over an area usually brings

(1) summer
(2) winter
(3) clear, dry weather
(4) cloudy, wet weather
30 The map below shows the location of Canada and the Gulf of Mexico.

 Compared to an air mass that formed over Canada, an air mass that formed over the Gulf of Mexico would be

(1) warm and moist  
(2) warm and dry  
(3) cold and moist  
(4) cold and dry

31 An announcement has just been broadcast that a tornado has been observed less than a mile from a person's home. Where is the safest place to seek shelter?

(1) on high ground  
(2) in a cellar  
(3) under a tree  
(4) at the top of a tall tree

32 The diagram below represents processes that are part of the water cycle.

![Water Cycle Diagram]

Which letter in the diagram shows the location where the greatest amount of evaporation would be taking place?

(1) A  
(2) B  
(3) C  
(4) D

33 Most weather systems in New York State move across the State from

(1) east to west  
(2) west to east  
(3) north to south  
(4) south to north
34 The graph below shows the temperature for a certain location over a period of time.

<table>
<thead>
<tr>
<th>Weekday and Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thursday</td>
</tr>
<tr>
<td>Noon 100</td>
</tr>
<tr>
<td>6 8 10 12 2 4 6 8</td>
</tr>
<tr>
<td>Friday</td>
</tr>
<tr>
<td>Noon 100</td>
</tr>
<tr>
<td>6 8 10 12 2 4 6 8</td>
</tr>
<tr>
<td>Saturday</td>
</tr>
<tr>
<td>Noon 100</td>
</tr>
<tr>
<td>6 8 10 12 2 4 6 8</td>
</tr>
<tr>
<td>Sunday</td>
</tr>
<tr>
<td>Noon 100</td>
</tr>
<tr>
<td>6 8 10 12 2 4 6 8</td>
</tr>
</tbody>
</table>

The highest daytime temperatures generally occurred between the hours of

(1) 6 a.m. and 8 a.m.
(2) 12 noon and 2 p.m.
(3) 4 p.m. and 6 p.m.
(4) 6 p.m. and 8 p.m.

35 The diagram below shows materials set up to demonstrate the effect of temperature on air circulation. The ice and light (heat source) are enclosed in a clear plastic box. A small amount of smoke is added to the box to make the movement of air visible.

Which diagram most accurately shows the movement of air in the box?

(1) [Diagram 1]
(2) [Diagram 2]
(3) [Diagram 3]
(4) [Diagram 4]
36 The table below shows the times of high tides and low tides for three days at a New York State location.

<table>
<thead>
<tr>
<th>Date</th>
<th>High Tide</th>
<th>Low Tide</th>
</tr>
</thead>
<tbody>
<tr>
<td>August 7</td>
<td>2:54 a.m.</td>
<td>9:06 a.m.</td>
</tr>
<tr>
<td></td>
<td>3:19 p.m.</td>
<td>9:31 p.m.</td>
</tr>
<tr>
<td>August 8</td>
<td>3:44 a.m.</td>
<td>9:56 a.m.</td>
</tr>
<tr>
<td></td>
<td>4:09 p.m.</td>
<td>10:21 p.m.</td>
</tr>
<tr>
<td>August 9</td>
<td>4:34 a.m.</td>
<td>10:46 a.m.</td>
</tr>
<tr>
<td></td>
<td>4:59 p.m.</td>
<td>11:11 p.m.</td>
</tr>
</tbody>
</table>

Which is the best prediction for the time high tide will occur on the morning of August 10?

(1) 3:24 a.m.  
(2) 4:24 a.m.  
(3) 5:24 a.m.  
(4) 6:24 a.m.

37 The change from day to night is caused by Earth's

(1) rotation  
(2) diameter  
(3) changing distance from the Sun  
(4) changing distance from the Moon

38 Most meteors are made of

(1) hot gases from the Sun  
(2) living material from space  
(3) ice crystals from planets  
(4) rock fragments from space

39 The diagram below shows Earth as it revolves around the Sun.

Six months after being at position A, Earth will be at position

(1) A  
(2) B  
(3) C  
(4) D

40 To an astronaut standing on the Moon, the Sun appears smaller than Earth because the Sun

(1) has less mass than Earth  
(2) is farther away than Earth  
(3) is only made of gas  
(4) does not radiate as much light as Earth
41 The diagram below shows a view of Earth from space.

![Diagram of Earth from space with Sun's Rays and North and South Poles indicated.]  

What is happening in the Northern Hemisphere at the time shown in the diagram?

(1) Winter is beginning.
(2) Spring is beginning.
(3) The warmest temperatures are occurring.
(4) The longest daylight hours are occurring.

---

42 In which diagram below do the arrows indicate the direction in which Earth spins on its axis?

![Four diagrams showing different directions of Earth's rotation with North and South America labeled.]  

(1) 
(2) 
(3) 
(4) 

---
43 Which diagram shows the most efficient way to move the 50-kilogram weight up the ramp?

(1) 

(2) 

(3) 

(4) 

45 The instrument in the diagram below is a periscope, which allows a person to see over obstacles.

A property of light that allows the periscope to function is that light waves

(1) bend around corners
(2) travel in straight lines
(3) cannot be reflected
(4) move faster than sound waves

44 The performance of work requires

(1) a machine
(2) energy
(3) water
(4) a chemical change

46 An object has kinetic energy because of its

(1) motion
(2) volume
(3) color
(4) height
47 The diagram below shows an incomplete electrical circuit.

Which object, when connected to the wires at position X, would complete the circuit and light the bulb?

(1) wooden matchstick  
(2) glass test tube  
(3) iron nail  
(4) rubber hose

48 The table below shows several types of electromagnetic energy and a common use of each type.

<table>
<thead>
<tr>
<th>Wave Frequency</th>
<th>Type of Electromagnetic Energy</th>
<th>Common Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>lower</td>
<td>radio waves</td>
<td>communication</td>
</tr>
<tr>
<td></td>
<td>microwaves</td>
<td>cooking foods</td>
</tr>
<tr>
<td></td>
<td>infrared</td>
<td>heating</td>
</tr>
<tr>
<td></td>
<td>x rays</td>
<td>medical tests</td>
</tr>
</tbody>
</table>

According to the table, the type of electromagnetic energy with the highest frequency is commonly used for

(1) transmitting information  
(2) cooking foods  
(3) heating  
(4) diagnosing diseases

49 Which type of energy change occurs when a toaster is operating?

(1) electrical energy to heat energy  
(2) mechanical energy to electrical energy  
(3) chemical energy to heat energy  
(4) heat energy to mechanical energy

50 One way to reduce the amount of heat lost by a house during cold weather is to

(1) increase the insulation in the attic  
(2) turn up the thermostat  
(3) use a wood-burning furnace instead of an oil-burning furnace  
(4) add blankets to the beds

51 The most important reason for a person to be careful when using electrical energy from a wall outlet is that electrical energy can

(1) blow a fuse  
(2) produce harmful fumes  
(3) produce toxic wastes  
(4) cause a fatal shock
54 The label below lists the first-aid procedures to follow after different kinds of contact with a certain chemical cleanser.

**IMMEDIATELY GIVE FIRST AID:**

**EYES:** Immediately flush eyes with water for 20 minutes. (Remove contact lenses first.)

**SKIN:** Rinse immediately with water for 15 minutes.

**INTERNAL:** Rinse mouth. Drink a glassful of water or milk. Do not cause vomiting.

According to the label, if a child drinks some of this cleanser, what type of first aid should be given?

1. Make the child vomit, and then give the child water to drink.
2. First rinse the child’s mouth, and then have the child drink water.
3. Call a doctor first, then rinse the child’s eyes.
4. Immediately rinse the child’s eyes with water for 20 minutes.

53 Pressurized cans should not be punctured because they may

1. be recycled
2. explode
3. heat up
4. release radiation.

55 Which natural phenomenon is an example of matter?

1. a heat wave
2. a thunderclap
3. a storm cloud
4. a lightning bolt
56 The chart below shows where some common acids may be found.

<table>
<thead>
<tr>
<th>Name of Acid</th>
<th>Where Found</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acetic acid</td>
<td>Vinegar</td>
</tr>
<tr>
<td>Ascorbic acid</td>
<td>Tomatoes, citrus fruits, vegetables</td>
</tr>
<tr>
<td>Carbonic acid</td>
<td>Rainwater, soft drinks</td>
</tr>
<tr>
<td>Hydrochloric acid</td>
<td>Gastric juice in stomach</td>
</tr>
</tbody>
</table>

Which acid is found in some fruits?

(1) acetic acid
(2) ascorbic acid
(3) carbonic acid
(4) hydrochloric acid

58 The diagram below shows the percentage, by mass, of elements in Earth's crust.

![Pie chart showing elemental composition of Earth's crust]

- Silicon 27.7%
- Oxygen 46.6%
- Aluminum 8.1%
- Iron 5.0%
- Calcium 3.6%
- Sodium 2.8%
- Others 6.2%

Which two elements make up almost three-quarters of the mass of Earth's crust?

(1) sodium and oxygen
(2) aluminum and silicon
(3) silicon and oxygen
(4) calcium and sodium

57 Which phase change occurs as heat is added to a substance at its melting point?

(1) liquid to gas
(2) gas to liquid
(3) liquid to solid
(4) solid to liquid

59 In a solution of sugar and water, all of the sugar can be recovered by evaporating the water. This information shows that dissolving is

(1) a pressure change
(2) a physical change
(3) an electromagnetic change
(4) a chemical change
The table below lists properties of three substances. Sodium chloride forms when sodium and chlorine combine.

<table>
<thead>
<tr>
<th>Substance</th>
<th>State (at room temperature)</th>
<th>Color</th>
<th>Additional Property</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sodium</td>
<td>metallic solid</td>
<td>silver</td>
<td>explosive in water</td>
</tr>
<tr>
<td>Chlorine</td>
<td>gas</td>
<td>pale yellow</td>
<td>poisonous</td>
</tr>
<tr>
<td>Sodium chloride</td>
<td>crystalline solid</td>
<td>white</td>
<td>used to flavor food</td>
</tr>
</tbody>
</table>

According to the table, sodium chloride has properties which are:

1. the same as those of sodium, but not chlorine
2. the same as those of chlorine, but not sodium
3. the same as those of both sodium and chlorine
4. different from those of sodium and chlorine

The diagram below shows one type of power plant.

In this system, moving water is used to produce:

1. solar energy
2. wind energy
3. chemical energy
4. electrical energy
<table>
<thead>
<tr>

</tr>
<tr>
<td></td>
<td>(4) nuclear energy</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>67</th>
<th>When decisions are made about the use of a new technology, which effects are appropriate to consider?</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>(1) all positive effects and only life-threatening negative effects</td>
</tr>
<tr>
<td></td>
<td>(2) only life-saving positive effects and all negative effects</td>
</tr>
<tr>
<td></td>
<td>(3) only life-saving positive effects and life-threatening negative effects</td>
</tr>
<tr>
<td></td>
<td>(4) all positive and negative effects</td>
</tr>
</tbody>
</table>
The chart below shows how some technological devices are used.

<table>
<thead>
<tr>
<th>Technological Device</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Insulin pump</td>
<td>provides insulin to diabetics</td>
</tr>
<tr>
<td>Dentures</td>
<td>help to chew food</td>
</tr>
<tr>
<td>Eyeglasses</td>
<td>help the eyes focus</td>
</tr>
<tr>
<td>Pacemaker</td>
<td>regulates uneven heartbeat</td>
</tr>
</tbody>
</table>

The information in the chart best supports the idea that the development of these technological devices has

1. resulted in society polluting the environment
2. improved society's standard of living
3. forced society to use renewable resources
4. had no effect on society

The cartoon below refers to an environmental concern.

"Congratulations. They've named a lung disease after you."

Which statement best expresses the cartoon's environmental concern?

1. Plant matter and animal wastes can be burned to produce heat.
2. Air pollution is usually radioactive.
3. Renewable resources are recycled by natural processes.
4. Air pollution can lead to respiratory problems.
Directions (70): Record your answer to question 70 in the space provided on the last page of this test booklet. Turn to the last page and fold it along the dotted line. Then tear it off slowly and carefully. Write your name and the other information requested in the spaces at the top of the page.

70 The data table below shows the average diameters of ripe tomatoes from plants grown with different amounts of fertilizer.

<table>
<thead>
<tr>
<th>Amount of Fertilizer Each Month (g)</th>
<th>Average Diameter of Tomatoes (cm)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>7</td>
</tr>
<tr>
<td>20</td>
<td>8</td>
</tr>
<tr>
<td>40</td>
<td>9</td>
</tr>
<tr>
<td>60</td>
<td>10</td>
</tr>
<tr>
<td>80</td>
<td>9</td>
</tr>
<tr>
<td>100</td>
<td>8</td>
</tr>
</tbody>
</table>

Use the information in the table to construct a graph on the grid shown on the answer sheet. Mark the location of each point with an X and connect the points to show the relationship between the amount of fertilizer used and the average diameter of tomatoes.
Write your answer to question 70 on this answer sheet. Do not make any mark in the space for question 70 on your multiple-choice answer sheet.

**70**

When you have completed this part of the examination, be sure to sign the declaration printed on the bottom of your multiple-choice answer sheet. Make sure you hand in this answer sheet along with your
